

Unique Photos

Atty. Dominador D. Buhain

FOREWORD

Unique Photos is a compilation of photos I have taken during the preceding six years from 2000 to 2006 in the course of my travels.

As the title suggests, the caption in each photo is meant to reflect the innermost feelings of the author, devoid of malice or inhibition to highlight a unique situation. Any remarks uttered which appear obnoxious was never meant to cast aspersion on those who may be included in the description.

Some of the photos are bold as the compilation is geared only for matured individuals.

The author trusts that the compilation will prove entertaining as well as informative.

Acknowledgment is given to REX Book Store-Recto Supervisor Teodora Anastacio who was responsible for arranging the photos and writing the captions in pencil based on the dictation of the author, and likewise to the staff who were involved in the printing of this compilation .
