

*Beautiful*  
**SIGHTS**

ATTY. DOMINADOR D. BUHAIN

## FOREWORD

*Beautiful Sights* is a compilation of the snapshots taken from December 2001 to January 2009 in various places and countries. Although beauty is subjective and remains in the eyes of the beholder, I hope I could present some shots which would merit your interest, appreciation and enjoyment.

At the bottom portion of each page is the pair of eyes of prominent or heroic personalities with historical perspective on why they attain such stature.

There maybe possibility that their eyes are likened to yours and your present-day achievements.
