

Beautiful
SIGHTS II

ATTY. DOMINADOR D. BUHAIN

FOREWORD

Beautiful Sights II is a compilation of snapshots taken from January 2008 to June 2010 in various places and countries.

At the bottom of each page is a description of a type of jewelry (earring, ring, necklace, etc.) with celebrities serving as models for the same.

This above added feature is chosen to further harmonize with the compilation title.

Again, although beauty is in the eyes of the beholder, I hope I would be able to present a snapshot or a page layout that would merit your attention and appreciation.
